

GFA IN BRIEF

GFA Consulting Group (GFA) has a decentralised organisational structure across all disciplines and regions. The company's range of business areas results from adapting to market developments. Current and innovative themes – such as migration, climate change and digitalisation – which often extend beyond sector or regional limitations are continuously integrated into the existing GFA portfolio. We develop solutions for the benefit of people and the environment. Based in Hamburg, GFA has provided worldwide effective solutions to the challenges in the global consulting market since 1982. Leading development agencies, ministries

and public clients have entrusted GFA with helping them to manage projects financed through bilateral and multilateral funds. GFA conducts more than 400 projects and studies worldwide every year. Working in cooperation with stakeholders in governments, the private sector, NGOs and citizens' groups, GFA balances innovation and reliability to meet specialised needs. The focus of GFA's corporate strategy is based on more than four decades of success in official development assistance (ODA). Gradually, the company offers resulting know-how to private and public customers beyond ODA.

GFA HOLDING AG | Managing Directors: Anja Desai, Christian Dürr, Dr Ilona Schadl, Dr Heiko Weißleder
