

CREATING OPPORTUNITIES

DYNAMIC IN A WORLD OF CHANGE

GFA, with its headquarters in Hamburg, is a global player in development cooperation. Since 1982 GFA has implemented complex studies and projects worldwide. Today GFA Consulting Group employs about 1,367 staff with an annual turnover about € 157 million (2023).

Leading development agencies, ministries and public clients have entrusted GFA with helping them to manage projects financed through bilateral and multilateral funds. Working in cooperation with stakeholders in government, the private sector, NGOs and citizens' groups, GFA balances innovation and reliability to meet local needs. GFA is an ever learning organization – its quality and performance is founded in market adaptation and staff orientation. The company's international recognition as a dependable partner is incorporated in a set of values which focuses on excellence, innovation, responsibility, integrity, and a focus on its human resources.

GFA VISION

WE IMPROVE THE LIVING CONDITIONS OF PEOPLE WORLDWIDE BY PROMOTING SUSTAINABLE DEVELOPMENT

- Creating prospects: Promotion of economic development, employment promotion, vocational training programmes
- Shaping migration: Migration management
- Reintegrating returnees: Job placement, placement in education, integration into employment

GFA SERVICES – QUALITY MATTERS

Project and program management as GFA's core service encompasses planning, implementation, and monitoring and evaluation. This is supplemented by feasibility and sector studies, and fund management. GFA has developed high-quality products and methods to increase the efficiency and sustained impact of services provided.

The company's range of business areas results from adapting to market developments so that new themes are continuously integrated into the existing GFA portfolio. High quality standards establish consistent performance levels within the entire decentralized organization.

Since April 2010, GFA's quality management system has been certified according to **DIN EN ISO 9001:2015** standards.

Since 2018 GFA has been committed to the **UN Global Compact** corporate responsibility initiative and its principles in the areas of human rights, labor, the environment and anti-corruption.

SETTING HIGH STANDARDS

GFA Consulting Group maintains high ethical, social and environmental standards in all its work. Basic principles are expressed in the company's Integrity and Code of Conduct Policy and related quality and project management guidelines.

GFA PERSONNEL – A MAJOR ASSET

Top specialists work with GFA as consultants and managers. They possess long-standing sector expertise and use state-of-the-art methods and instruments when managing technical assistance projects and advising clients. Their pool of experience shapes GFA's best practices, and contributes to professional discussion fora.

Many of today's outstanding permanent staff members were recruited as junior professionals. The inflow of young talent with fresh

ideas and great dedication reflects GFA's attention to performance, innovation, credibility and quality. Staff members alternate between technical and administrative tasks in Germany and abroad, hence gaining different perspectives of development cooperation.

In addition, GFA invests in targeted staff development through a wide range of up-to-date trainings. The focus is on consulting skills, client-specific, technical and ICT courses as well as foreign languages. Consultants are encouraged to advance their technical and management skills so that they are well-prepared taking on team leader tasks related to GFA studies and projects worldwide.

A specialized recruitment department safeguards the availability of qualified personnel for requests at any time during the acquisition of projects and studies or, if necessary, during project implementation. GFA recruitment specialists search for experts in their own database as well as in professional platforms and social media worldwide. They identify suitable internal and external experts, update CVs, and follow up with negotiations and communication. This helps enhance a professional network of experts in a broad spectrum of technical fields, and support a swift recruitment process.
